PROFESSIONAL SUMMARY

Analytical Mathematics Specialist (MSc) and Data Analyst combining a rigorous quantitative foundation with advanced expertise in Data Science, statistical analytics, and mathematical modeling. Proven track record of leading technical research design, executing complex data visualizations, and architecting computational simulations alongside hands-on HR administration and community leadership. Driven to leverage computational precision and strategic problem-solving in executive-track administrative, banking, and corporate roles.

PROFESSIONAL EXPERIENCE & LEADERSHIP

- International Astronomy and Astrophysics Competition (IAAC) · Ambassador (Remote)** May 2025 – Present
- Spearhead global STEM outreach across university cohorts, driving scientific engagement and analytical problem-solving through targeted campaigns and collaborative events.
- Student Association of Chuadanga (SACJU) · Joint Secretary (Previously: Office Secretary) | Jahangirnagar University** Apr 2023 – Dec 2025
- Modernized organizational governance by digitizing committee records and designing standardized financial expense invoices with 100% audit accuracy.
 - Engineered and deployed large-scale student demographic surveys via Google Forms, analyzing complex datasets in Excel to drive strategic decisions.
 - Directed the “Admission Support & Volunteering Recognition - 2025” initiative, orchestrating orientation logistics and mentorship for incoming freshmen.
- Youth School for Social Entrepreneurs (YSSE) · Human Resources Intern (Admin & HR Dept.) | Remote** Aug 2023 – Apr 2024
- Authored and compiled formal operational reports and analytical documentation within the Documentation Sub-Group, reinforcing organizational transparency.
 - Designed, formatted, and executed the publication of the official YSSE newsletter, measurably elevating stakeholder engagement and communication.

EDUCATION

- Master of Science (MSc) in Mathematics — Jahangirnagar University, Savar, Dhaka** Roll: 895 | CGPA: 3.05/4.00 | Apr 2025 – Sep 2026
Core Focus: Partial Differential Equations, Computational Fluid Dynamics, Operations Management, Mathematical Modeling.
- Bachelor of Science (BSc) in Mathematics — Jahangirnagar University, Savar, Dhaka** Roll: 53 | CGPA: 2.60/4.00 | Mar 2020 – Mar 2025
Core Focus: Mathematical Modeling, Numerical Methods, Boolean Algebra Reporting, Survey-Based Research Projects.
- HSC & SSC (Science) — Hasadah Model Kamil Madrasah (Madrasah Board)** GPA: 5.00/5.00 (Both) | Jan 2014 – Jul 2018

CORE COMPETENCIES & TECHNICAL SKILLS

- Data & Analytics:** Python (Matplotlib, NumPy, SciPy), C, Statistical Data Analysis, Data Visualization, GIS Mapping.
- Mathematics:** Mathematical Modeling (Goldbeter-Lefever model, glycolytic oscillations), Numerical Methods, Boolean Algebra, Partial Differential Equations.
- Tools & Software:** Advanced Microsoft Excel, L^AT_EX, Microsoft Word, Canva, Google Workspace, Apple Pages.
- Professional Skills:** Human Capital Management, Academic Publishing Standards, Project Documentation, Cross-Functional Leadership.

KEY TECHNICAL RESEARCH, CONSULTING & CERTIFICATIONS

- Postgraduate Thesis Technical Design & Data Visualization · Lead Data Analyst & Typesetting Specialist** Jun 2025 – Mar 2026
- Livestock Sector Economic Returns:** Constructed gendered-dynamics radar charts, ROI matrices, and log frame matrices for a 131-page MDS thesis.
 - Informal Sector & Poverty Reduction:** Processed multivariate logistic regressions, Pearson correlation matrices, and Chuadanga regional GIS poverty maps.
 - E-Banking in Bangladesh:** Executed rigorous document typesetting and layout structuring of complex economic models for a 134-page master’s thesis.
- Mathematical Modeling & Computational Simulation · Academic Researcher** Sep 2025 – Mar 2026
- Developed Python simulation algorithms (Matplotlib, SciPy) to generate research-grade phase portraits and bifurcation diagrams analyzing biochemical pathways via the Goldbeter-Lefever glycolytic oscillation model.
- Doctoral & Academic Research Projects · Research Assistant (PhD Data) & Project Lead (Boolean Algebra)** Sep 2024 – Sep 2025
- Administered observational surveys, designed data collection methodologies, and visualized PhD research findings (Jan-Sep 2025); programmed structural graphs in Python Matplotlib analyzing Boolean functions for academic defense (Sep 2024-Mar 2025).
- 🌟 **Licenses & Certifications:** Data Science Certificate Program – **OSTAD** (Mar 2024) · CareerX 36 Leadership Program – **BYLC** (Dec 2023) · Admin & HR Internship – **YSSE** (Dec 2023) · Python for Data Science & Analytics – **Coursera** (2023) · Certified Volunteerism – **LEAD Academy** (Sep 2023).
