

MD FARHAD HOSSEN

Data Analyst & Mathematics Specialist

202-Mowlana Bhasani Hall, JU, Savar, Dhaka, Bangladesh.

Portfolio: fdszone.github.io/fdszone/

EXECUTIVE PROFILE

Highly analytical Mathematics professional and dynamic candidate combining a rigorous academic foundation (MSc in Mathematics) with advanced expertise in Data Science, statistical analytics, and mathematical modeling. Proven capacity to lead technical design, execute complex data visualization, and structure high-level academic and corporate research. An adaptable community leader with hands-on HR administration experience, driven to leverage computational precision and strategic problem-solving to optimize cross-functional team performance. Actively targeting executive-track administrative and analytical roles within the public, banking, and corporate sectors.

CORE COMPETENCIES

Data & Analytics: Python (Matplotlib, NumPy, SciPy), C, Statistical Data Analysis, Data Visualization, GIS Mapping

Mathematics: Mathematical Modeling (e.g., Goldbeter-Lefever model, glycolytic oscillations), Numerical Methods, Boolean Algebra, Partial Differential Equations

Tools & Software: Advanced Microsoft Excel, LaTeX, Word, Canva, Google Workspace, Apple Pages

Professional Skills: Human Capital Management, Academic Publishing Standards, Project Documentation, Cross-functional Leadership

PROFESSIONAL EXPERIENCE & LEADERSHIP

Student Association of Chuadanga (SACJU)

Apr 2023 – Dec 2025

Joint Secretary (Previously: Office Secretary) | Jahangirnagar University

- Spearheaded comprehensive digital documentation, managing committee records and designing organizational expense invoices with precision and accuracy.
- Engineered and deployed large-scale student demographic surveys via Google Forms, structuring and analyzing complex datasets in Excel to support strategic organizational decisions.
- Directed the "Admission Support & Volunteering Recognition – 2025" initiative, coordinating logistics and orientation programs for incoming freshmen to enhance student engagement and success.

International Astronomy and Astrophysics Competition (IAAC)

May 2025 – Present

Ambassador | Remote

- Selected to represent and promote global STEM initiatives, fostering scientific engagement and analytical thinking among university cohorts through targeted outreach and collaborative events.

Youth School for Social Entrepreneurs (YSSE)

Aug 2023 – Apr 2024

Human Resources Intern (Admin & HR Department) | Remote

- Authored and compiled formal operational reports and analytical documents as a key member of the Documentation Sub-Group, ensuring high standards of organizational transparency.
- Designed, formatted, and executed the publication of the official YSSE newsletter, significantly driving organizational engagement and stakeholder communication.

TECHNICAL RESEARCH & CONSULTING PROJECTS

Postgraduate Thesis Technical Design & Data Visualization

Jun 2025 – Mar 2026

Lead Data Analyst & Typesetting Specialist

- **Economic Returns in the Livestock Sector:** Constructed intricate radar charts mapping gendered dynamics, structured ROI matrices, and formatted logframe matrices for a 131-page MDS thesis.
- **Informal Sector & Poverty Reduction:** Processed multivariate logistic regression tables, generated Pearson correlation matrices, and integrated regional GIS mapping for Chuadanga district poverty analysis.
- **E-banking in Bangladesh:** Executed rigorous document typesetting and layout structuring of complex economic models for a 134-page master's thesis, ensuring strict compliance with academic publishing standards.

Mathematical Modeling & Computational Simulation

Sep 2025 – Mar 2026

Academic Researcher

- Developed advanced Python scripts utilizing Matplotlib and SciPy to generate research-grade phase portraits and bifurcation diagrams.
- Conducted extensive computational simulations analyzing complex biochemical pathways, specifically focusing on the Goldbeter-Lefever model for glycolytic oscillations.

PhD Research Data Management

Jan 2025 – Sep 2025

Research Assistant

- Administered observational surveys, designed structured data collection methodologies, and visualized complex doctoral research findings via advanced charting techniques.

Boolean Algebra: Graphical Representation

Sep 2024 – Mar 2025

Academic Project Lead

- Utilized Python's Matplotlib library to generate structural graphs, analyzing Boolean functions and properties for successful academic defense.

ACADEMIC BACKGROUND

Master of Science (MSc) in Mathematics

Apr 2025 – Present

Jahangirnagar University | Savar, Dhaka | Roll: 895

Core Focus: Partial Differential Equations, Computational Fluid Dynamics, Operations Management, Mathematical Modeling

Bachelor of Science (BSc) in Mathematics

Mar 2020 – Mar 2025

Jahangirnagar University | Savar, Dhaka | Roll: 53 | CGPA: 2.60/4.00

Core Focus: Mathematical modeling, numerical methods, Boolean algebra reporting, and survey-based research projects

Alim & Dakhil (Science)

Jan 2014 – Jul 2018

Hasadah Model Kamil Madrasah | Chuadanga, Bangladesh | GPA: 5.00/5.00

LICENSES & CERTIFICATIONS

- **Data Science Certificate Program** – Ostad (Mar 2024)
- **CareerX 36 Leadership Program** – Bangladesh Youth Leadership Center (Dec 2023)
- **Admin & HR Internship Certificate** – Youth School for Social Entrepreneurs (Dec 2023)
- **Python for Data Science & Data Analytics** – Coursera (2023)
- **Certified Volunteerism: Connect, Engage & Develop** – LEAD Academy (Sep 2023)
